Private Dedicated Connectivity

About the Service/Feature

TDRA provides two types of connectivity to connect government entities to FedNet. Private dedicated connectivity is encrypted and used to link government entities via a private network with high standards, while virtual private networking is made online via FedNet. Connectivity is made upon the requirements of the applicant and in coordination with FedNet.

Service steps

Step 1 → Log in using your UAE Pass account

Step 2 → Submit the application form

Step 3 → Receive an NOC from TDRA addressed to the service provider

Step 4 → Contact the service provider to request lines

Step 5 → Notify TDRA of the connectivity readiness

Step 6 → Meeting between the FedNet team and the applicant

Step 7 → Completing the required technical survey

Step 8 → TDRA will review the application and survey

Step 9 → Receive the service
