

High performance internet gateway

About the Service/Feature

This service provides secure internet to all federal government entities through a dual internet service provider, which allows for higher productivity. This service provides a unified internet connection within federal entities. The Federal Network is the main internet service provider for federal entities, which guarantees a service availability by 99.99% throughout the year

Service steps

- Step 1** → Log in using your UAE Pass account
- Step 2** → Submitting the service application
- Step 3** → Completing the required survey
- Step 4** → The application and survey to be reviewed by TDRA
- Step 5** → Getting the service output
