## BETHA PROGRAM

In order to support the information and Communication technologies sector, the Telecommunications Regulatory Authority (TRA) launched the "Betha" initiative to strengthen the education sectors' role in supporting outstanding nation scientific cadres, as well as advance the level of education in the ICT sector.

The TRA has assessed the status of national human resources in the ICT field and has determined that the number of specialized national graduates does not meet the ICT sectors growing demand for skilled local professionals.

Thus, the TRA signed a cooperative agreement called the "Betha" scholarship program, where local education institutions are entrusted to undertake the selection and supervision of students at well-respected local universities.

## VISION

Meet the ICT sector growing needs and pursue of the rapid developments.

## MISSION

- Provide the optimum environment for students to meet future requirements of the ICT sector in the UAE.
- Encourage investment, innovation, development and education.
